

*Due to space constraints, zip file 14 now contains three video files: 14, 15 & 16. Thus, the number of the zip filename on the download page of your order does not correspond to the number of the video contained.*

*Zip File 15 now contains new videos 17 & 18 ('Split Toning' & 'Presets & History').*

*The name of the actual .mov video file is in parenthesis beneath the Zip File number.*

The Tutorial will be approximately 40 numbered videos within 37 download .zip files.

If you purchase the Tutorial in a Pre-Publication Sale version, note that this Table of Contents will change and the placement, numbering and titles of individual videos may change. Check this dated ToC for the latest files.

File 40 will contain the most recent ToC.

New or Revised Files are marked with an asterisk\*

**Re-organized Zip files are marked in Red**
